## HOW TO USE THREADLESS ENDS

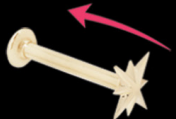

**STEP 1** Insert the steel pin about 1/4 of the way into the post.

**STEP 2** Carefully push the threadless end downward to make a slight bend.

The more you bend the pin the tighter the fit!

**STEP 3** Push the threadless end into the post & celebrate your own unique beauty!

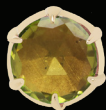

TO REMOVE: Pull apart from both ends. If the jewelry is tight, slightly twist while pulling.

Our threadless ends are made of the highest quality body safe materials—14K gold—intended for long term use.

# SEPTUMS

## SEAM RING

Our seam rings should be taken in and out by a professional.

If you are comfortable inserting and removing seam rings, please support the ring where the design meets the wearable surface and twist it open away from you.

Do not over-bend or pull both sides apart, as the soft gold can lose its shape or snap if handled improperly.

HOLD HERE

ALTERNATE VIEW

## CLICKERS

Lightly pull up on the segment of the ring between the hinge and the seam.

Press down to close until you hear a click.

All of our septums are made of 14K gold and are nickel free.

## PRO TIPS

Gently open and close designs with latches to ensure longevity.

Our latches are designed to be adjustable. If your hanging jewelry becomes loose, you can gently adjust the latches with brass jaw flat nose pliers or bring them to your reputable local piercing studio for assistance.

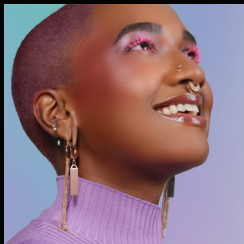

If you feel the latch isn't working easily we are also able to help, get in touch with us before attempting to repair it yourself.

## MAYA JEWELRY

# MAYA JEWELRY

## KALEIDOSCOPE

Peer into the vortex and get swept into a psychedelic masterpiece of dimension, shape, and shine. Exquisite concentric beaded details lead the eye to a gorgeous inverse vanishing point, in a dance of reflecting light that shimmers with you when you move.

These are also available in a Traditional size.

- 2 1/4"L x 2 1/4"W
- Must be at least 14g to wear
- Weight: 52g per piece
- Hand forged
- Available in copper
- This item is not available for pre-order. Once sold through this item will be discontinued.
- Sold as pair

EAR WEIGHTS

# ENGRAVING

LEFT

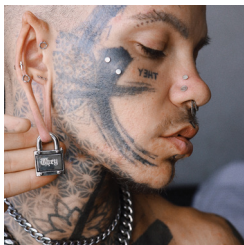

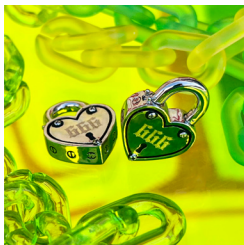

RIGHT

## LATCH POSITIONING

Custom engraving is available for only Till Death and Forever Yours.

**Till Death:** You can add custom engraving to one or both ear weights up to 7 characters each.

**Forever Yours:** You can add custom engraving to one or both ear weights up to 3 characters.

-The engraving process may take up to two weeks to complete. Your engraved earrings will be shipped as soon as they are completed and you will receive a shipping confirmation. Engraved products do not qualify for our return policy.

## EAR WEIGHTS

# MAYA JEWELRY

## MATERIALS AND MANUFACTURING PRACTICES

All of our jewelry designs are handcrafted originals. Depending on each design, available materials include:

- 14 Karat yellow, rose, and palladium-based white gold

- 925 silver

- 14K yellow and rose gold plating

- hand-forged brass, copper, and white brass

We use vegan and all-natural polishing compounds in our production process. Our manufacturing process is compliant with APP jewelry standards and each product page contains information on material and sizing availability. All of our jewelry is designed with integrity so that it can withstand extended wear with proper care. We guarantee our jewelry 100% against manufacturer defects. All metal oxidizes more quickly when left out in the open air because of exposure to moisture. We recommend an appropriate microfiber polishing cloth for maintenance, but please be mindful to avoid putting too much pressure on the jewelry when you polish as it may degrade the gold plating.

Our threadless ends are 14 Karat gold and are nickel-free. Our ends come with a steel pin that is universally compatible with all reputable threadless posts. Posts are sold separately at your esteemed local piercing studio. Our ends are delivered with straight pins so that you can adjust them to your perfect fit. If you are unfamiliar with bending threadless end pins or do not know the appropriate size post, we recommend that you go to your favorite local studio for assistance.

## JEWELRY CARE

## GENUINE OPALS

All of our opals are Coober Pedy Australian Opals. Each stone is hand-picked for its brilliance and flash, making each stone individual and unique. Please note that each genuine stone is distinctive in appearance and may vary in color or striations.

Please be aware that opals are soft stones and can scratch or break easily with improper care. Opals are not suitable for autoclave or ultrasonic cleaning as they can crack or experience water penetration.

## GENUINE STONES

We are extremely proud of our semi-precious stone line. All of our stones are hand-chosen via respected vendors with whom we have built trusted relationships. We use skillfully faceted stones with the lowest profiles that we can get our hands on. The quality of the stones vary depending on the piece which will be reflected in the price. Please note that natural stones vary greatly and may vary in color or striations.

JEWELRY FOR DEFIANTLY  
UNIQUE PEOPLE LIKE YOURSELF

WEAR IT AS WE MAKE IT - WITH LOVE

HANDCRAFTED  
WITH LOVE  
IN POWER

At Maya Jewelry we
